interworks

FIND YOUR PATH TO
REALLY GOOD DATA

Our Story

InterWorks was founded on the idea that there has to be a better way. Whether that was a vision of a better culture for employees or the attitude of a better way for customers to get the kind of help they want with tech. That "something better" is what drives our curiosity. That mentality is found in everything we do. It keeps us on track to always find our way to doing the best work, for the best clients, with the best people.

A Better Way...

Imagine one beautiful entry-point to all your analytics—a single website where you can answer a quick question with ThoughtSpot, study a Tableau dashboard and peek at a Power BI report. Does this sound like a solution you need? Curator by InterWorks is your gateway to the modern analytics stack.

Behind Curator is InterWorks' global team of consultants, driven by a daily mission to find the best paths to really good data. Conquer big analytics unknowns, like navigating data cloud platforms and building a modern data stack. Don't settle for good enough. Find a better way with InterWorks.
