

Unlock the Power of Platform Engineering

A ready-to-use internal developer platform that eliminates 80% Ops gruntwork and enables developer self-service.

Works with all cloud providers

Productize your infrastructure without building platforms in-house

- ◆ Enable developer self-service by setting up Ops guardrails
- ◆ Manage your entire architecture through a single pane of glass
- ◆ Simplified, no-code infrastructure provisioning
- ◆ Orchestrate releases across multiple environments
- ◆ Pre-configured monitoring dashboards and log management

Well-architected

**Hosted in your
cloud**

**Extensible and
Reusable**

**Robust Access
Control**

Facets' Impact

20%

Increase in Developer Productivity

100%

Infra Autonomy for Devs

80%

Ops time freed up

25X

Release velocity

60%

Lesser TCO on Cloud Maintenance

“ We could see the complexity going up 10X, and Facets still working for us. ”

-Suyash K
Co-founder and CTO, Purple

Trusted solution for companies with complex DevOps setups
