What is gamification in simple words?

Gamification is adding game-like elements, like a website, online community, learning management system, or social media platform, to increase participation. The goal of gamification is to engage users and partners to inspire collaborate, share and innovate.

gamification **noun**

gam·i·fi·ca·tion (,gā-mə-fə-'kā-shən )

: the process of adding games or gamelike elements to something (such as a task) so as to encourage participation

eLearning.....

One of the best ways to teach people about finance, money and life skills is by playing Monopoly!

There are so many money and life lessons:

- teaches strategic thinking
- planning ahead
- maths
- negotiating with others
- processes and rules
- deal with winning or losing circumstances
- control their emotions
- risk

New to this? Who knew you didn't know.....

1. Check the options available out there
2. Engage the “experts”
3. Prepare a “participation plan”
4. Align the content
5. Watch, learn & adapt
6. Rinse, repeat

Don't do it in Cyber Awareness Weeks!

You can gamify anything

Tips and Tricks

It must be:

- Immersive
