Product Description Generator - Product Center

The screenshot displays the 'Product Center' web application. The browser's address bar shows the URL 'Product Center'. The application's header includes a navigation bar with 'Dashboard', 'Price', 'Product', and 'Activity History' tabs. Below this, a sidebar on the left contains a list of categories: 'BASIC INFO', 'PRICE', 'LISTING', 'DIMENSION', 'IMAGES', and 'COMPLIANCE INFO'. The main content area is titled 'Living Room ARMCHAIR' and features a 'New' button. A 'DESCRIPTION' section is highlighted, containing a text area with the prompt 'List product features and keywords (at least two)'. A purple 'Autowrite' button is positioned above this text area. Below the description section is a 'FEATURES' section with a corresponding text area. The interface also includes 'Save' and 'Submit' buttons in the top right corner.

Introducing the ultimate solution for your comfort - the velvet green armchair! Designed with the best possible features, this armchair is sure to elevate your relaxation.

First and foremost, the armchair comes with excellent quality cushioning, which is essential for comfort. The cushioning is made with high-density foam, making it both soft and durable. Additionally, the armchair includes a thick padding on the armrests to give you a place to rest your weary arms.

This armchair has an elegant design that will complement any home decor. The chair is made from high-quality materials, ensuring its durability and longevity. The upholstery is made with premium velvet fabric that's both comfortable and stylish.

One of the best features of this armchair is that it's a recliner. With easy-to-use manual controls, you can choose the perfect position for your preferred level of relaxation. Whether working on a laptop, reading or watching television, this armchair, with its recliner feature, is perfect for you.

how to clean my ice maker?

Generating answer..

Type a new question (e.g. does my plan cover annual eye exams?)

how to clean my ice maker?

To clean your ice maker, follow these steps:

1. Turn off the unit and shut off the water faucet to the main water supply.
2. Open the door and scoop out all the ice cubes.
3. Prepare the cleaning solution. Mix 300ml of the Nu-Calgon nickle-safe ice machine cleaner with 2.8 litres of warm water (50°C to 60°C). Wear rubber gloves and safety goggles when handling the ice machine cleaner. Use a plastic or stainless steel container with more than 4 litres capacity. Then divide them into two equal portions in a cup.
4. Check to make sure that the water drainage pipe is properly installed into the slot of the tank wall. Then pour one cup of the prepared cleaning solution into the water tank.
5. Turn on the unit and let it run for about 5 minutes. Then, set the cleaning timer to 30 minutes.
6. After 30 minutes, turn off the unit and drain the water from the tank by opening the drain cap.
7. Rinse the water tank by filling it with clean water and letting it run for about 5 minutes. Then, drain the water again.
8. Wipe down the exterior of the unit with a damp cloth.

For more detailed instructions, please refer to the "CLEANING AND MAINTENANCE" section of the user manual [1](#) [2](#).

CLEANING AND MAINTENANCE

ICE MAKING ASSEMBLY CLEANING WITH NU-CALGON NICKLE-SAFE ICE MACHINE CLEANER

Minerals that are removed from the water during the freezing cycle will eventually form a hard scale deposit in the water system. Cleaning the system regularly helps to minimize the mineral scale build-up. How often this needs to be done will depend on how hard the water is. With hard water of up to 4 to 5 grains/litre, you may need to clean as often as every 6 months.

1. Turn off the unit. Keep the unit connected to the water supply and drainage pipe. Shut off the water faucet to the main water supply.
2. Open the door and scoop out all the ice cubes. Discard them or leave it in an ice chest or cooler.
3. Prepare the cleaning solution. Mix the Nu-Calgon nickle-safe ice machine cleaner with water to make the cleaning solution.

WARNING
Wear rubber gloves and safety goggles when handling the ice machine cleaner.

Use a plastic or stainless steel container with more than 4 litres capacity. Mix 300ml of the Nu-Calgon nickle-safe ice machine cleaner with 2.8 litres of warm water (50°C to 60°C). Then divide them into two equal portions in a cup.

4. Check to make sure that the water drainage pipe is properly installed into the slot of the tank wall. Then pour one cup of the prepared cleaning solution into the water tank. Wait for 5 mins.
5. Turn on the power to the unit. Press the **TIMER CLEAN** button on the control panel and hold for 5 secs to enter into its self-cleaning program. The water pump will run for 5 mins and then stop for 3 mins for each cleaning cycle. The total duration is 30 mins for the entire self-cleaning program. During this program, the **CLEAN** indicator will be lighted and the digit window will display the remaining time.
6. After 30 mins of one self-cleaning program cycle is done, pull out the drainage pipe of the water tank and drain the cleaning solution down to the lower ice storage container. Shake the unit lightly to drain out all the cleaning solution completely. Then install the drainage pipe to the slot of the water tank.
7. Repeat Steps 4 to 6 to clean the ice making assembly again.
8. Then open the water faucet of the main water supply. Let the water flow into the unit. Press the **TIMER CLEAN** button on the control panel and hold for 5 secs to enter into its self-cleaning program again. Let the program run for its 30-minute duration.
9. After 30 mins of one self-cleaning program cycle is done, pull out the drainage pipe of the water tank and drain the cleaning solution down to the lower ice storage container. Shake the unit lightly to drain out all the cleaning solution completely. Then install the drainage pipe to the slot of the water tank.
10. Repeat Steps 8 to 9 for another two times.
11. Follow the procedure to clean the ice storage container.
12. Once this special cleaning has been completed, proceed to make the ice cubes and discard the first batch of ice cubes.

WARNING
The ice machine cleaner contains acids. DO NOT use or mix with any other solvent-based cleaner product. Use rubber gloves to protect hands. Carefully read all safety instructions on the use of the ice machine cleaner on its label.

Kind Regards,
Julieta - Catch Customer Service

autoreply 24 August 2023 at 16:01

Note: This is an auto-notification for reference only. In case of any requests or issues please reply back and we will get back to you as soon as possible.

Dear 🇲🇻,

Thank you for your message.

2

Your order has been cancelled and refund will be processed soon. Please allow 3 - 5 business days for the refund to appear in your original payment method.

As we are a third party seller, we do not have access to the payment systems. Please get in touch with your payment provider regarding the status of your refund.

However, if you come across any further issues please let us know and can reach out for assistance.

Best Regards,
Daily Plaza Team

Kind Regards,

Daily Plaza Team
