PROJECT WEEK

What if your **Business Problem** could meet the **Next Generation** of Data Analysts?

WHO ARE THE DATA SCHOOL?

The consultants at The Data School are comprised of the brightest data minds in the country, trained in the best data analytics techniques including best- practice visualisation skills, next level insights and technologies like Alteryx, Tableau and Power BI.

And now, we're opening our doors...
Are you ready to experience the **Art of the Possible?**

HOW WE CAN HELP

We've helped organisations in industries across Australia benefit from real insights, ranging from fraud detection to customer churn, laboratory efficiency to store product placement... and now it's your turn.

WHAT WE OFFER

Five days. Eight consultants. Completely free.

You can take this opportunity to find out what exactly the industry has been talking about and see our Data School consultants in action using your own data .

Do you have a business problem to solve? Let us show you what the next generation of data analytics consultant looks like at The Data School.

WHAT'S INVOLVED

You provide us the data and a subject matter expert to explain the problem you're trying to solve, and we take care of the rest.

You get to keep everything we create - all we ask is that you give us a couple of hours of your time.

INTERESTED?

Get in touch with our Engagement Manager to see how we can help.
