Zimperium - Securing the Mobile-Powered Business

Zimperium enables companies to realize the full potential of a mobile-powered business by activating a mobile-first security strategy. Zimperium's Mobile-First Security Platform™ delivers unmatched security across both applications and devices. The platform unifies **Zimperium Mobile Threat Defense™ (MTD)** and **Mobile Application Protection Suite™ (MAPS)**, unleashing powerful features and functionality designed for teams who bear security responsibility across the entire mobile security spectrum.

Only Zimperium delivers autonomous mobile security that dynamically adapts to changing environments so companies can securely capitalize on the new world of mobile-powered opportunities. As the recognized category creator with the only mobile-first security platform, Zimperium is the choice of mobile-forward leaders who want to activate a mobile-first security strategy to realize the promise of mobile-powered business.
